## SUMMARY

---

Driven and collaborative engineering manager/product-focused software engineer with a passion for building and leading high-performance teams. Well versed in servant leadership, empathetic management, and recruitment, with extensive experience in agile product-development environments. Highly effective in driving quality software development, supporting technical decision-making processes, and placing a keen focus on end-user needs. Proven capacity to remove blockers to improve workflow efficiency and deliver top-tier customer and business value.

## EXPERIENCE

---

**Engineering Manager**  
**Farmako** • [farmako.ai](https://farmako.ai)

March 2025 – Present  
*Gurugram, Haryana*

- Employed servant-leadership principles to build trust within the team, fostering a transparent and collaborative environment.
- Regularly held 1:1s, created personal development plans, and took on proactive recruitment responsibilities to maintain a high-performing team.
- Successfully removed blockers with empathy to create a safe team environment and improve workflow efficiency.
- Guided the team towards high-quality software development, reinforcing technical decision-making processes in line with product-focused needs.
- Advocated for an agile, dynamic setting and encouraged team leadership to drive product development further.
- Conducted effective communication across teams, raising issues constructively and consistently evaluated engineering work through the lens of customer and business value.

## LEADERSHIP

---

**Project Lead**  
**Leadership** • Passion Project • [leadershipProject.com](https://leadershipProject.com)

August 2022 – Present

- Led a team of engineers to build high-quality software solutions in an agile and dynamic setting
- Fostered a transparent and collaborative environment, promoting open communication across teams
- Guided technical decision-making processes and ensured product-focused end goals
- Regularly evaluated engineering work, ensuring it delivers top-tier customer and business value
