SUMMARY

A passionate iOS Engineer with a strong foundation in iOS ecosystem, equipped with profound hands-on iOS development experience. Skilled in crafting extensible platform software supporting seamless UX. Proficient in effective CI/CD pipeline development and end-to-end system design. Demonstrated excellence in mobile observability, architecture, and platform tooling.

EXPERIENCE

Software Development Engineer
Farmako • farmako.ai

March 2025 – Present
Gurugram, Haryana

- Built a resilient design system following Figma tokens popularizing the principle of modularity.
- Pioneered robust and dynamic UI using advanced Dart features, catapulting overall project code quality.
- Stabilized CI/CD workflows, leading to a 40% reduction in build failures.
- Implemented a cross-platform CI/CD pipeline, accelerating distribution times by 60-70%.
- Optimized costs and time efficiency by replacing GitHub-hosted runners with local runners.
- Developed a local-first cart system, ensuring smoother UX and faster add-to-cart speed.

Flutter Developer
PuStack • pustack.com

July 2021 – March 2025
Remote

- Integrated Agora's native Android and iOS SDK into a Flutter plugin, reducing development time by 25%.
- Established a reliable video calling mechanism by integrating FCM, iOS CallKit, and Flutter.
- Developed a Flutter video calling plugin, reducing development time by over 75%.
- Executed responsive designs for tablet and iPad, ensuring pixel-perfect UI across multiple screen sizes.
- Crafted a dedicated Flutter app for tutors facilitating collaboration between 50,000+ students and tutors.
- Delivered Instagram Stories-like feature using advanced video caching and optimizing load times.
- Led seamless deployment of PuStack and PuStack Tutor apps on Play Store and App Store.
- Designed a resilient call billing and payout system, increased engagement by 25%.

PROJECTS

MyMoney • majesticui.com

- Developed an expense tracking app in Flutter for iOS and published in App Store.
- Used advanced Dart features for implementing the system.
- Introduced SMS extraction feature to collect transaction details.

Majestic UI • Passion Project • majesticui.com

- Created a Flutter UI system with reusable components and a CLI delivery system.
- Introduced a Next.js platform hosting Flutter WebViews for encouraging open-source contributions.

The CS Guy • Passion Project • youtube.com/@TheCSGuy

- Produced Flutter UI centric tutorials having 200,000+ views.
- Launched a free Flutter tutorial series reaching 150,000+ viewers.

SKILLS

iOS: Swift, UIKit, Core Data, SwiftUI, Interface Builder

Flutter: Bloc, Navigator 2.0, Provider, Riverpod, Freezed, GetIt, GoRouter, MVVM, Unit Testing

Web: ReactJS, NextJS (TypeScript), ExpressJS, Zustand, Redux

Backend: Firebase, MongoDB, Prisma, Supabase, ConvexDB

CI/CD: Git, GitHub, GitHub Actions (CI/CD), Jenkins, Xcode Server

Others: Performance Optimization, Debugging, Agile Methodologies

EDUCATION

Bachelors of Engineering • RGPV University • Bhopal, MP • 2021 • GPA: 4.25/5.0
