## SUMMARY

---

Results-oriented Flutter developer seeking the opportunity to utilise extensive experience in mobile application development, UI design, state management, CI/CD pipeline implementation, application security, bug fixing, and code optimization. Well-versed in writing unit/widget/integration tests, conducting code reviews and integrating backend APIs/SDKs. Proven ability in improving app performance and reliability, ensuring accessibility, analytics, security, and privacy compliance.

## EXPERIENCE

---

### SDE

**Farmako** • [farmako.ai](https://farmako.ai)

March 2025 – Present  
*Gurugram, Haryana*

- Developed responsive, polished UIs focused on performance and reliability, in line with product/design requirements.
- Engaged in writing unit/widget/integration tests and participated in code reviews; optimized code and debugged complex issues for rapid feature delivery while maintaining code quality.
- Built and maintained cross-platform mobile apps using Dart, ensuring smooth functioning and seamless User Experience (UX).
- Collaborated closely with product, design, and backend teams to align development efforts with strategic goals.
- Ensured accessibility, analytics, security, and privacy compliance in app development.
- Contributed to robust CI/CD pipelines and monitoring implementation, reducing build time and errors.

### Flutter Developer

**PuStack** • [pustack.com](https://pustack.com)

July 2021 – March 2025  
*Remote*

- Designed and built cross-platform mobile apps using the Flutter framework and Dart programming language, ensuring applications ran seamlessly on all platforms.
- Improved app functionality and user experience by integrating with backend APIs/SDKs.
- Developed and implemented robust state management and clean architecture, enabling efficient scaling of the application.
- Participated in agile meetings and produced high-quality software within the scheduled timeline.
- Assured smooth transition and debugging of applications, guaranteeing rapid deployment and high-quality code.
- Spearheaded the set-up and maintenance of CI/CD pipelines, facilitating quick and automatic code deployments.

## SKILLS

---

- **Development:** Dart, Flutter, Android (Java, Kotlin), iOS (Swift), Backend: (Firebase, MongoDB)
- **UI Design:** Responsive UIs, UX, Figma, Material Design, Apple UI guidelines
- **State Management:** Bloc, Provider, Riverpod, GetIt, GoRouter, MVVM
- **Testing:** Unit, Widget, Integration testing, automated tests
- **Version Control & CI/CD Implementation:** Git, GitHub, GitHub Actions
- **Collaborative Development:** Code Reviews, Team Collaboration

- **Compliance:** Accessibility standards, Security requirements, Privacy regulations

## EDUCATION

---

**Bachelors of Engineering** • RGPV University • Bhopal, MP • 2021 • GPA: 4.25/5.0
