## SUMMARY

Mobile engineer focused on Flutter with strong native Android/iOS experience. I build production apps end-to-end (architecture, UI systems, CI/CD) and have a strong track record of shipping and teaching.

## EXPERIENCE

**SDE**  
**Farmako** • [farmako.ai](https://farmako.ai) March 2025 – Present  
Gurugram, Haryana

- Built a responsive design system governed by **Figma tokens** and improved UI consistency across the app.
- Shipped a new dynamic UI using advanced Dart patterns (mixins, factory constructors, typed enums), improving maintainability.
- Stabilized CI/CD workflows and reduced build failures by **40%**.
- Unified Android/iOS + Firebase Distribution + Shorebird pipelines, cutting distribution time by **60–70%**.
- Migrated from GitHub-hosted to local runners, reducing costs and speeding up builds by **25%**.

**Flutter Developer**  
**PuStack** • [pustack.com](https://pustack.com) July 2021 – March 2025  
Remote

- Built Flutter apps end-to-end for tutors and students (50,000+ users), including tablet/iPad responsive UI.
- Integrated **Agora** native Android/iOS SDKs via a Flutter plugin, reducing implementation time by **25%**.
- Shipped WhatsApp-like calling using FCM + **iOS CallKit**; also built a reusable calling plugin, cutting dev time by **75%+**.
- Delivered an Instagram Stories–style feature with video caching, reducing load times by **35%**.
- Built internal admin tools (CMS + customer care) on Flutter Web; led Play Store/App Store releases.

## PROJECTS

**MyMoney** • [majesticui.com](https://majesticui.com/my-money)

- Flutter expense tracker shipped to Play Store and App Store.
- Local parsing of bank statements + SMS extraction; stored transactions in an offline-first local DB.
- MVVM + Bloc state management; heavy Dart usage (extensions, factory constructors).

**Majestic UI** • Passion Project • [majesticui.com](https://majesticui.com)

- Built a reusable Flutter UI system + CLI and a Next.js site to distribute examples and components.
- Reached 12,000+ YouTube views within one week of launch.

**The CS Guy** • Passion Project • [youtube.com/@TheCSGuy](https://youtube.com/@TheCSGuy)

- Created Flutter tutorials and a free course (350,000+ total views), focused on UI engineering and best practices.
- Covered advanced state management (Bloc/Riverpod/Provider) and pragmatic testing/TDD.

## SKILLS

**Flutter:** Bloc, Navigator 2.0, Provider, Riverpod, Freezed, GetIt, GoRouter, MVVM, Unit Testing

**Mobile:** Android (Java, Kotlin, Jetpack Compose), iOS (Swift)

**Web:** ReactJS, NextJS (TypeScript), ExpressJS, Zustand, Redux

**Backend:** Firebase, MongoDB, Prisma, Supabase, ConvexDB

**Source Control:** Git, GitHub, GitHub Actions (CI/CD)

## EDUCATION

**Bachelors of Engineering** • RGPV University • Bhopal, MP • 2021 • GPA: 4.25/5.0
