SUMMARY

Competitive when learning, collaborative when building. I am skilled in full-stack web application development, with proficiency in C#.NET, ASP.NET, HTML5, CSS3, JavaScript, and SQL Server. I have extensive experience in designing, implementing, testing, and documenting new features and enhancements for flagship products. I am adept at working in global teams and providing production support. I also have a strong background in teaching and building countless professional, personal, and freelance projects in Flutter.

EXPERIENCE

Software Developer   March 2025 – Present
Farmako • farmako.ai   *Gurugram, Haryana*

- Designed and developed new features and enhancements for flagship products, ensuring high-quality deliverables.

- Implemented unit tests and maintained comprehensive documentation for developed features.

- Worked effectively with global teams, coordinating with members from various countries.

- Addressed and resolved production support tickets promptly.

Flutter Developer   July 2021 – March 2025
PuStack • pustack.com   *Remote*

- Integrated **Agora's** native Android and iOS SDK into a Flutter plugin, enabling seamless whiteboard and networking capabilities while reducing development time by 25%.

- Established a reliable video calling mechanism by integrating FCM, **iOS CallKit**, and Flutter, delivering functionality on par with WhatsApp.

- Developed a **Flutter video calling plugin** inspired by getstream.io with an abstract ringer for easy Android/iOS integration using native CallKit, cutting development time by over 75%.

- Implemented responsive designs for tablet and iPad, ensuring pixel-perfect UI across diverse screen sizes.

- Built a dedicated Flutter app from scratch for tutors, enabling collaboration between 50,000+ students and tutors.

- Shipped an **Instagram Stories–inspired** feature using advanced video caching and Flutter best practices to reduce load times by 35%.

- Built admin tools including a Content Management System and Customer Care Platform on Flutter Web.

- Led revisions and seamless deployment of **PuStack** and **PuStack Tutor** apps on **Play Store** and **App Store**.

- Designed a resilient call billing and payout system for instructors, increasing engagement by 25%.

PROJECTS

MyMoney • majesticui.com

- Expense tracking app, built in Flutter, published to play store and app store.

- Parses users bank statement locally and stores the transactions in local DB.

- Advanced dart usage: extensions, factory constructors, MVVM with Bloc for state management.

- Fetches last 10 SMS to extract any transaction details and store them in local DB.

Majestic UI • Passion Project • majesticui.com

- Designed a Flutter UI system with reusable components and a CLI delivery system.
- Created a Next.js platform hosting Flutter WebViews to encourage open-source contributions.
- Reached 12,000+ YouTube views within one week of release.

The CS Guy • Passion Project • youtube.com/@TheCSGuy

- Produced tutorials emphasizing Flutter's UI capabilities, garnering 200,000+ views.
- Delivered a free Flutter course reaching 150,000+ viewers.
- Demonstrated advanced state management (Bloc, Riverpod, Provider) and TDD practices.

SKILLS

Technical Skills:

- Proficiency in C#.NET and ASP.NET with at least 3 years of experience.
- Experience with the .NET ecosystem, including .NET Framework, .NET Core, and .NET 5.
- Strong knowledge of RESTful API frameworks.
- Frontend development skills in HTML5, CSS3, and JavaScript.
- Experience with unit testing frameworks like XUnit.net or NUnit.
- Proficiency in RDBMS, particularly SQL Server or other relational databases.
- Familiarity with code repositories such as Git or Azure Repos.
- Exposure to DevOps practices, including CI/CD and containerization.

Additional Skills:

- Ability to develop solutions independently, ensuring high-quality and issue-free deliverables.
- Provide guidance and conduct code reviews for junior developers.
- Create and maintain technical design documents.
- Strong verbal and written communication skills, with experience in environments where clients are offshore.
- Experience working in agile environments, such as Scrum or Kanban.
- Proficiency in using collaboration and project management tools like MS Teams and JIRA.

EDUCATION

B.Tech/B.E. in Computer Science • RGPV University • Bhopal, MP • 2021 • GPA: 4.25/5.0
